Subject: ANUH-01.0150, Standardized Advanced NUHOMS® Updated Final Safety Analysis Report (UFSAR), Revision 3, and 10 CFR 72.48 Summary Report for the Period 3/21/07 to 8/15/08, Docket 72-1029

- References:
1. Letter from U. B. Chopra (TN) to Joseph Sebrosky (NRC), "Submittal of Revision 2 of the Updated FSAR (UFSAR) for the Standardized Advanced NUHOMS® Horizontal Modular Storage System For Irradiated Nuclear Fuel," August 17, 2006 (ANUH-01-06-06)
 2. Letter from Donis Shaw (TN) to NRC Document Control Desk, "Submittal of Biennial Report of 72.48 Evaluations Performed for the Standardized Advanced NUHOMS® System, CoC 1029, for the Period 3/21/05 to 3/20/07, Docket 72-1029," dated March 23, 2007 (E-24782)

Pursuant to 10 CFR 72.248, Transnuclear, Inc., (TN) has updated ANUH-01.0150, the Standardized Advanced NUHOMS® UFSAR, last updated by Reference 1, and herewith submits UFSAR Revision 3 updates for docketing. This update incorporates changes implemented by TN pursuant to 10 CFR 72.48, through the date of this letter. Changes are identified with revision bars and italicized text.

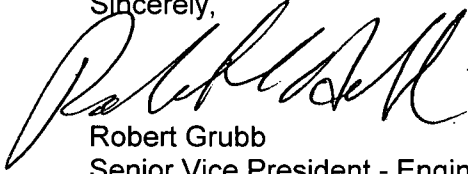

I certify that this submittal accurately presents changes made since the submittal of Reference 1.

This submittal includes proprietary information which may not be used for any purpose other than to support NRC staff review of the application. In accordance with 10 CFR 2.390, I am providing an affidavit (Enclosure 1) specifically requesting that you withhold this proprietary information from public disclosure. This submittal also includes security-related information. Accordingly, two versions of replacement pages, Proprietary and Public, are provided, as Enclosures 2 and 3, respectively.

Also, pursuant to 10 CFR 72.48(d)(2), TN hereby submits the 72.48 summary report for the Standardized Advanced NUHOMS® System for the period 3/21/07 to 8/15/08, as Enclosure 4. Reference 2 provided the most recent summary report. The summaries are being provided earlier than the 24-month required timing in order to establish a common timeframe for future UFSAR updates and 72.48 summary reports.

Should you have any questions regarding this submittal, please do not hesitate to contact Mr. Don Shaw at 410-910-6878 or me at 410-910-6930.

Sincerely,

Robert Grubb
Senior Vice President - Engineering

Enclosures:

1. Affidavit Pursuant to 10 CFR 2.390
2. Replacement Pages for ANUH-01.0150, the Standardized Advanced NUHOMS® UFSAR, Revision 3 (Proprietary Version)
3. Replacement Pages for ANUH-01.0150, the Standardized Advanced NUHOMS® UFSAR, Revision 3 (Public Version)
4. 72.48 Summary Report for the Standardized Advanced NUHOMS® System for the Period 3/21/07 to 8/15/08

AFFIDAVIT PURSUANT
TO 10 CFR 2.390

Transnuclear, Inc.)
State of Maryland) SS.
County of Howard)

I, Robert Grubb, depose and say that I am Senior Vice President of Transnuclear, Inc., duly authorized to execute this affidavit, and have reviewed or caused to have reviewed the information which is identified as proprietary and referenced in the paragraph immediately below. I am submitting this affidavit in conformance with the provisions of 10 CFR 2.390 of the Commission's regulations for withholding this information.

The information for which proprietary treatment is sought is contained in Enclosure 2 and as listed below:

1. Portions of Drawing ANUH-01-4001, Revision 4
2. Portions of Drawing NUH-03-4011, Revision 5

These documents have been appropriately designated as proprietary.

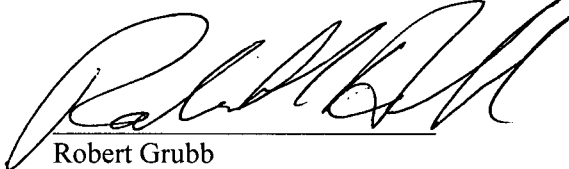

I have personal knowledge of the criteria and procedures utilized by Transnuclear, Inc. in designating information as a trade secret, privileged or as confidential commercial or financial information.

Pursuant to the provisions of paragraph (b) (4) of Section 2.390 of the Commission's regulations, the following is furnished for consideration by the Commission in determining whether the information sought to be withheld from public disclosure, included in the above referenced document, should be withheld.

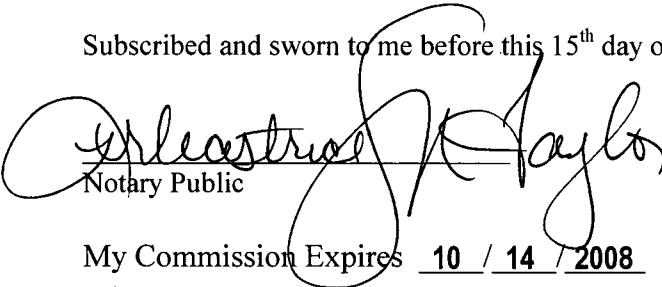

- 1) The information sought to be withheld from public disclosure are design drawings associated with the Standardized Advanced NUHOMS[®] System, which are owned and have been held in confidence by Transnuclear, Inc.
- 2) The information is of a type customarily held in confidence by Transnuclear, Inc. and not customarily disclosed to the public. Transnuclear, Inc. has a rational basis for determining the types of information customarily held in confidence by it.
- 3) The information is being transmitted to the Commission in confidence under the provisions of 10 CFR 2.390 with the understanding that it is to be received in confidence by the Commission.
- 4) The information, to the best of my knowledge and belief, is not available in public sources, and any disclosure to third parties has been made pursuant to regulatory provisions or proprietary agreements which provide for maintenance of the information in confidence.
- 5) Public disclosure of the information is likely to cause substantial harm to the competitive position of Transnuclear, Inc. because:
 - a) A similar product is manufactured and sold by competitors of Transnuclear, Inc.

- b) Development of this information by Transnuclear, Inc. required expenditure of considerable resources. To the best of my knowledge and belief, a competitor would have to undergo similar expense in generating equivalent information.
- c) In order to acquire such information, a competitor would also require considerable time and inconvenience related to the development of a design and analysis of a dry spent fuel storage system.
- d) The information required significant effort and expense to obtain the licensing approvals necessary for application of the information. Avoidance of this expense would decrease a competitor's cost in applying the information and marketing the product to which the information is applicable.
- e) The information consists of descriptions of the design and analysis of dry spent fuel storage and transportation systems, the application of which provide a competitive economic advantage. The availability of such information to competitors would enable them to modify their product to better compete with Transnuclear, Inc., take marketing or other actions to improve their product's position or impair the position of Transnuclear, Inc.'s product, and avoid developing similar data and analyses in support of their processes, methods or apparatus.
- f) In pricing Transnuclear, Inc.'s products and services, significant research, development, engineering, analytical, licensing, quality assurance and other costs and expenses must be included. The ability of Transnuclear, Inc.'s competitors to utilize such information without similar expenditure of resources may enable them to sell at prices reflecting significantly lower costs.

Further the deponent sayeth not.

Robert Grubb
Senior Vice President, Transnuclear, Inc.

Subscribed and sworn to me before this 15th day of August, 2008.
