TOTAL CARRIED FORWARD TO 1ST PAGE (ITEM 17(H))

In accordance with the task order procedures of Delivery Order DR-33-07-358, Maintenance and Operational Support of NRC Application Systems and Environment, this definitizes Task Order No. 30, titled "Short Term Business Application Support System (BASS) Lightweight Directory Access Protocol (LDAP) Implementation Support." This effort shall be performed in accordance with the attached Statement of Work, the attached OAO Corporation price schedule dated September 16, 2008, the terms and conditions of Delivery Order DR-33-07-358, and GSA Schedule No. GS-35F-4524G.

Period of Performance and Cost

The period of performance of Task Order No. 30 is October 1, 2008 through September 25, 2009. The effort is anticipated to be completed within a four month period, ending January 31, 2009, but will depend on the availability of additional funding in FY 2009.

This is a labor hour task order with a fixed ceiling. The total estimated amount (ceiling) for the products/services ordered, delivered, and accepted under this task order is \$721,861.03.

Price Schedule

OAO Corporation's price schedule dated September 16, 2008 for Task Order No. 30 showing labor categories, estimated labor hours, and rates in the amount of \$721,861.03 is attached.

Consideration and Obligation - Accounting and Appropriation Data - DR-33-07-358-30

B&R: 810-15-5F1-340 JCN: J1272 BOC: 252A APP NO: 31X0200.810
Commitment No. 10870821C Obligate \$485,023.74

The amount presently obligated with respect to this task order is \$485,023.74 (FY 2008 funds). This obligated amount may be unilaterally increased from time to time by the Contracting Officer by written modification to this task order. The obligated amount shall at no time exceed the task order ceiling. When and if the amount(s) paid and payable to the Contractor hereunder shall equal the obligated amount, the Contractor shall not be obligated to continue performance of the work unless and until the Contracting Officer shall increase the amount obligated with respect to this task order. Any work undertaken by the Contractor in excess of the obligated amount is done so at the Contractor's sole risk.

Key Personnel

The following individuals are considered to be essential to the successful performance of work hereunder: Michael Daley, Manager - Special Projects; Mike Groves, System Administration/Analyst; and Prakash Bhadraiah, Architect. The Contractor agrees that such personnel shall not be removed from the effort under the task order without compliance with Section C.26, Key Personnel, of Delivery Order DR-33-07-358.

The issuance of Task Order No. 30 does not change any terms or conditions of the subject delivery order.

(b)(4)

Task Order 30 Short Term Business Application Support System (BASS) Lightweight Directory Access Protocol (LDAP) Implementation Support

A. Background

The Office of Information Services/Business Process Improvement and Application Division (OIS/BPIAD) has a need for operational and system support for a short term project, not to exceed a four month period ending January 31, 2009, to develop procedures and pilot/prototype a reusable common user access module for user authentication and role based security, such as Single Sign-On (SSO), for existing and future applications. This includes analysis and understanding of the Lightweight Directory Access Protocol (LDAP) and utilizing the Windows Active Directory for data sharing with possible consideration of the Identity Management (IM) project being developed by OIS/ICOD.

The Contractor shall have the ability to provide expertise for this project in a timely manner, i.e. within one week of the statement of work being issued.

B. Scope

The Contractor shall provide knowledgeable staff and technical expertise to perform the task. The Contractor shall perform analysis of user access methods for existing applications and determine how best to incorporate LDAP and Windows Active Directory, to provide a common interface for user authentication and role based security levels. The Contractor shall have the ability to bring in Subject Matter Experts (SME's) or hire subcontractors to complete assignments under this Task Order.

C. Statement of Work

The contractor shall ensure project management activities as described in this paragraph are performed either by providing project manager under this task order or as part of normal day-to-day activities. The Contractor shall provide a project plan, spending plan and a list of individuals and a description of their expertise/skill set for this task order. The work shall include, but is not limited to, the following tasks:

1. The assessment of the existing Active Directory infrastructure, for applicability to support application single sign-on support.
2. The development of an architectural recommendation for providing an enterprise-wide single sign-on capability within the current framework, at the Nuclear Regulatory Commission (NRC). The recommendation shall include the requirements for each application that uses the single sign-on infrastructure.
3. The implementation of a prototype solution that integrates a single NRC application to use the architectural framework specified in statement 2 above. The specific application used for the prototype will be selected from a list of applications recommended by the contractor and approved by NRC.

4. The Contractor shall document the results of the prototype developed, and also provide lessons learned and recommendations for implementation as an enterprise-wide solution.

D. Deliverables

One week after the inception of the project, the Contractor shall provide a project plan, spending plan and list of individuals and a brief description of their expertise/skill set to complete the project. Prior to three weeks to completion of this task order, the contractor shall deliver those items as defined under section C. Statement of Work, items 1, 2, 3, and 4.

E. Place of Performance

The Contractor shall perform most of the required services at the contractor facility; however some services may be required to be performed at the NRC facility. No permanent space is available at the NRC.

F. Expertise/Skills

The Contractor shall provide SME's, or hire a sub-contractor, with the appropriate skills to include but not limited to:

1. demonstrated ability to perform problem source identification and resolution
2. excellent communications and interpersonal skills
3. competency in writing user and technical documentation
4. knowledge of CASE technology
5. knowledge of connectivity through LAN, TCP/IP, Open Client, and ODBC
6. knowledge of Lightweight Directory Access Protocol (LDAP), Windows Active Directory
7. knowledge of Single Sign-On (SSO) concept and demonstrated prior development efforts within a application to database environment

G. Reporting Requirements

It is anticipated that the NRC will conduct weekly meeting with the Contractor personnel. The meetings will be conducted at the NRC's Rockville, Maryland, offices. No other unique reporting is required which exceeds that which would be presented in the Bi-weekly Status Report.

H. Task Order Manager

The manager for this Task Order is Mark Evans, 301-415-8447, Mark.Evans@nrc.gov.
