SUBJECT: USER-NEED MEMORANDUM – DEVELOPING RULEMAKING

NUCLEAR MATERIAL

In response to your memorandum dated March 23, 2010, my staff will begin developing the proposed rule to revise and consolidate the current material control and accounting (MC&A) regulations in Title 10 of the *Code of Federal Regulations* (10 CFR). On February 9, 2009, SRM-SECY-08-0059 (ADAMS Accession No. ML090360473) indicated the Commission's approval of Option 4 in the rulemaking plan. Our understanding is that the original regulatory basis for the rule, dated September 27, 2007, (ADAMS Accession No. ML072130075) has not changed.

The project manager for this rulemaking will be Thomas Young. If you have any questions, he can be reached at 415-5795. We look forward to working with you and your organization to produce the rule. An orientation meeting for the working group will be announced later this month.
