- (e) Letter from M. G. Korsnick (CENG) to Document Control Desk (NRC), dated February 1, 2010, Notice Regarding Name Change of EDF Development Inc.

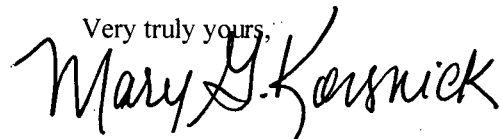

Reference (a) transmitted the Constellation Energy Nuclear Group, LLC (CENG) five-year report on foreign ownership, control and influence. Attachment (1) updates Form SF 328, Certificate Pertaining to Foreign Interests, to reflect a recent joint venture indirectly between Constellation Energy Group, Inc. (CEG) and EDF Inc. One of the areas in which the Nuclear Regulatory Commission (NRC) staff reviewed and approved the current structure of the joint venture was through a Foreign Ownership, Control or Influence (FOCI) determination (References (b) through (d)). EDF Inc. is a U.S. Corporation organized under the laws of the State of Delaware and a wholly-owned subsidiary of E.D.F. International S.A., a société anonyme organized under the laws of France. Attachment (2) contains lists of officers and directors for Constellation Energy Nuclear Group, LLC, Constellation Nuclear Power Plants, LLC, Calvert Cliffs Nuclear Power Plant, LLC, R.E. Ginna Nuclear Power Plant, LLC, and Nine Mile Point Nuclear Station, LLC. Each of those lists of officers and directors includes at least one foreign national employed by an EDF entity.

The governance structure established for CENG is designed to assure continued U.S. control over CENG with respect to matters related to nuclear safety, security, and reliability. This structure was reviewed and approved by the NRC staff in References (b) through (d). The transaction with EDF Inc. did not affect the qualifications of CENG and its subsidiaries to own and operate their licensed facilities in accordance with the existing licenses. The transaction did not result in any change in the role of CENG's subsidiaries as the licensed operators of the facilities and did not result in any adverse changes to their financial qualifications, decommissioning funding assurance, or technical qualifications. No physical changes were made to the facilities, and there were no adverse changes in day-to-day operations as a result of the transaction. The transaction neither adversely impacted public health and safety, nor was it inimical to the common defense and security.

References (b) through (d) are NRC Orders approving the CENG joint venture between CEG and EDF Development Inc. EDF Development Inc. later changed its name to EDF Inc., as reported to the Nuclear Regulatory Commission in Reference (e).

Should you have questions regarding this matter, please contact Mr. Bruce S. Montgomery at 410-470-5388 or Bruce.Montgomery@cengllc.com.

Very truly yours,

Mary G. Korsnick
Senior Vice-President & Chief Nuclear
Officer

REMARKS (Attach additional sheets, if necessary, for a full detailed statement.)

Constellation Energy Nuclear Group, LLC subsidiaries have a number of contracts, agreements, understandings, and arrangements with foreign persons related to the operations of its U.S. power plants. These are normal, operational-related contracts for fuel and equipment.

1b: The CENG joint venture has a 49.99% ownership interest by an ultimate French parent company, EDF SA, as set forth in the documents (Ref. b, c, and d) referenced in the cover letter.

3: Five of the ten CENG directors are French citizens that are employees of the French parent, EDF SA. At least one officers of CENG and its subsidiaries is a non-US citizen employed by EDF and seconded to CENG.

4: Because half of the ten directors are EDF SA employees, the French parent influences appointment of some officers.

5: CENG is party to several nuclear fuels-related contacts with non-US entities. Various other contracts for equipment of components are also with foreign entities.

9: The five EDF directors also hold management positions within the various parent entities under EDF SA.
