To Whom It May Concern:

This is to request an amendment to the radioactive materials license for Des Peres Hospital, in St. Louis, Missouri. Two changes are requested to the license:

1. Remove Item 6D, by-product material permitted by 10CFR31.11, invitro studies. These procedures are no longer performed at the facility and authorization may be removed.
2. The facility requests changing the Radiation Safety Officer from Dr. Daniel Abodeely to Dr. Gregory Cizek. Dr. Cizek is currently an authorized user named on the license. Dr. Cizek has been working at this facility for multiple years and has sufficient experience and training to assume the duties of RSO. Attached, please find a delegation of authority letter authorizing Dr. Cizek to assume the duties of RSO. Also enclosed is NRC form 313A (RSO), which documents training and experience under Dr. Abodeely, as well as his written attestation that Dr. Cizek is capable of functioning independently as the Radiation Safety Officer.

NRC form 313 and copies of the current radioactive materials license for the facility are enclosed for your reference. If you have any questions, please contact our office or the contact person listed on NRC form 313. Thank you.

Sincerely,

Tom Schlarman
