

OCT 18 1973

Docket No. 50-305

Mr. E. W. James
Senior Vice President
Wisconsin Public Service Corporation
P. O. Box 1200
Green Bay, Wisconsin 54305

Dear Mr. James:

Reference is made to your letter of September 21, 1973, regarding the submission of supplemental reports PIO-02-03 and PIO-01-06, pertaining to analyses of the main steam check and isolation valves for the Kewaunee plant.

Our review of these reports has indicated several areas where additional information is required. The specific information is listed in the enclosure. In order that we may complete our review of the reports, we request that you provide the information identified in the enclosure as soon as possible.

Since both the valve problems and the reports in question affect Northern States Power's Prairie Island units as well as Kewaunee, we are forwarding an identical request list to them.

Sincerely,

Karl Kniel, Chief
Pressurized Water Reactors
Branch No. 2
Directorate of Licensing
