Dear Mr. O'Leary:

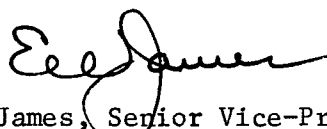

Subject: Amendment No. 33 to the Application for
Construction Permit and Operating License
for the Kewaunee Nuclear Power Plant

AEC Docket 50-305

We submit, herewith, eighty-five (85) copies of Amendment No. 33 to the Kewaunee Nuclear Power Plant Application for Construction Permit and Operating License.

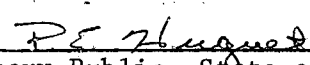

This submittal consists of answers in response to Mr. Karl Kniel's letter dated September 28, 1973, which requested an analysis of the containment pressure response to consider the effects of possible energy addition from the steam generators during the period when the core has been recovered with water. In addition, we have made miscellaneous changes to pages of the Technical Specifications of the FSAR.

Very truly yours,

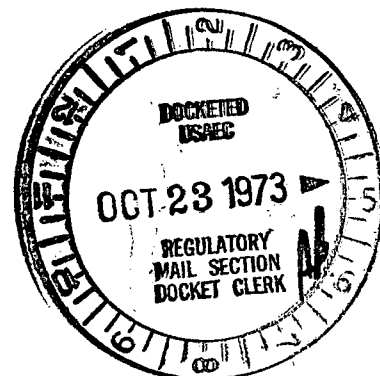

E. W. James, Senior Vice-President
Power Generation & Engineering
