RE: NRC license # 37-30120-01

Dear Ms. Weidner:

Please amend our Nuclear Regulatory Materials License (37-30120-01) to reflect the inclusion of an additional authorized user, 35.200; In vitro studies for Malli Kamireddy, M.D. Attached you will find documentation as to his current Licensure for Radioactive Materials as well as his documentation of his cardiovascular training and imaging experience.

Please contact me at your earliest convenience with any questions.

Thank you for your prompt attention in this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Lon P. Wilson", is written over the typed name.

CONDITIONS

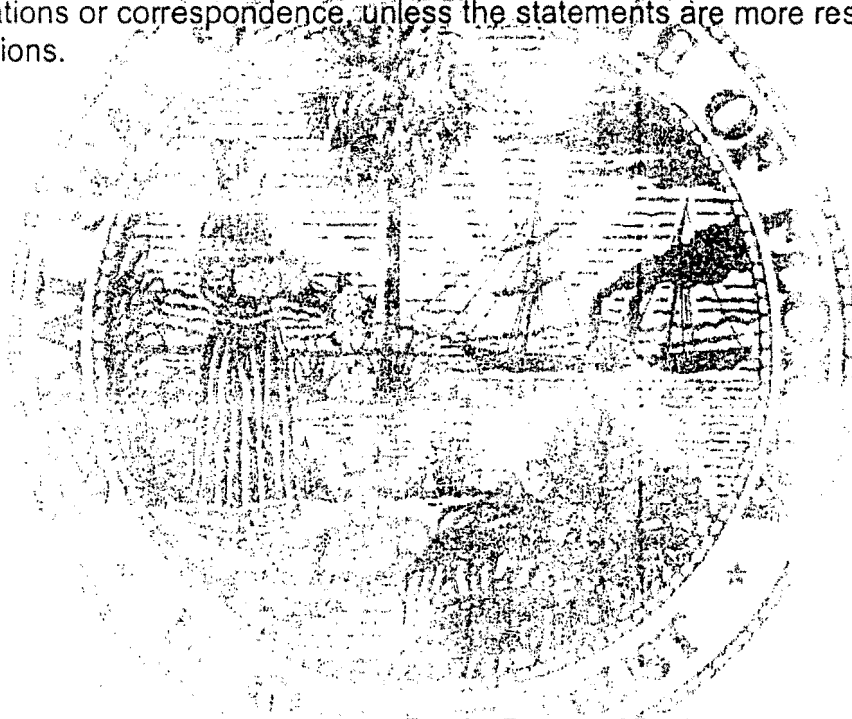

10. The authorized place of use is the licensee's facility located at Suites A1 and A2, 5130 Linton Boulevard, Delray Beach, Florida 33484.
11. Failure to comply with the provisions of this license is a felony of the third degree pursuant to section 404.161, Florida Statutes. Also, violations may warrant an administrative fine of up to \$1,000.00 per violation per day, pursuant to section 404.162, Florida Statutes.
12. A. The following individuals are authorized for the materials and uses as indicated:

Authorized Material and Uses as Described in Items 6, 7, 8, and 9	Names
64E-5.627	Bruce Martin, M.D. Malli Kamireddy, M.D.
64E-5.627 for cardiac studies only (except generators and reagent kits)	Mircea Rasvan Carp, M.D.

- B. The radiation safety officer is Bruce Martin, M.D.
- C. Radiologic technologists who use and administer radioactive materials or perform brachytherapy or teletherapy procedures under the general supervision of an authorized user shall hold a valid certificate as required by Chapter 468, F.S.
13. Radioactive material transported on public thoroughfares shall be packaged, prepared for shipment, and transported in accordance with Title 49, Code of Federal Regulations and Chapter 64E-5, F.A.C.
14. Sealed sources containing licensed material shall not be opened.
15. The licensee shall not authorize release from confinement for medical care any patient administered a radiopharmaceutical until:
- A. The dose rate is less than 5 millirem (50 microsieverts) per hour at a distance of 1 meter; or
- B. The amount of radioactive material in the patient is less than 30 millicuries.

A party whose substantial interest is affected by this order may petition for an administrative hearing pursuant to sections 120.569 and 120.57, Florida Statutes. Such proceedings are governed by Rule 28-106, Florida Administrative Code. A petition for administrative hearing must be in writing and must be received by the Agency Clerk for the Department, within twenty-one (21) days from the receipt of this order. The address of the Agency Clerk is: Agency Clerk, 4052 Bald Cypress Way, BIN # A02, Tallahassee, Florida 32399-1703. The Agency Clerk's facsimile number is 850-410-1448. A copy of the petition should also be sent to: Bureau Chief, Bureau of Radiation Control, 4052 Bald Cypress Way, BIN # C21, Tallahassee, FL 32399-1741. The Bureau Chief's facsimile number is 850-487-0435. Mediation is not available as an alternative remedy. Your failure to submit a petition for hearing within 21 days from receipt of this order will constitute a waiver of your right to an administrative hearing, and this order shall become a "final order." Should this order become a final order, a party who is adversely affected by it is entitled to judicial review pursuant to Section 120.68, Florida Statutes. Review proceedings are governed by the Florida Rules of Appellate Procedure. Such proceedings may be commenced by filing one copy of a Notice of Appeal with the Agency Clerk of the Department of Health and a second copy, accompanied by the filing fees required by law, with the Court of Appeal in the appropriate District Court. The notice must be filed within 30 days of rendition of the final order.

To Whom It May Concern,

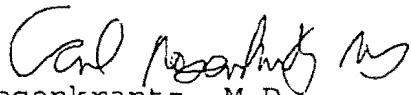

This letter is to confirm that Dr. Mali Kamireddy received training experience at our institution, Delray Medical Center in Imaging and Localization studies. Preceptorship began in June, 1999 and continued until the present day. During this training program, Dr. Kamireddy received not less than 500 hours of supervised work experience and well in excess of 500 hours of supervised clinical experience.

The experience of Dr. Kamireddy was gained under the supervision of an authorized user.

Supervised work experience included recording, receiving and unpacking radioactive materials safely and performing the related radiation surveys calibrating doses and diagnostic imaging performing checks for proper orientation of survey meters, calculating and safely preparing patient dosages, using administrative controls to prevent the misadministration of byproduct material, using procedures to contain spill byproduct materials safely and using proper decontamination procedures.

Supervised clinical experience included examining patients and reviewing their case histories to determining the suitability for radioisotope diagnosis, limitations or contraindications, selecting suitable radiopharmaceuticals and calculating and measuring the doses, administering doses to patients and using syringe radiation shield collaborating with the authorized user and the interpretation of radioisotope test results in patient followup.

Sincerely,

Carl Rosenkrantz, M.D.
Radiation Safety Officer,
