Re: NRC License No. 06-00221-08. Docket Number: 030-03759

Subject: Unrestricted Release of Middlebury Site and Termination of License 06-00221-08

Dear Mr. Lawyer,

Enclosed please find a copy of the Final Radiological Status Report for Chemtura's Middlebury Connecticut site along with a copy of the report on a CD. We believe that the radiological surveys that we performed fully meet the MARSSIM requirements. All survey information is included in the report.

After your review of the data, please terminate License 06-00221-08.

It is noted that Chemtura hired Radiation Safety Associates (RSA), Inc. for this decommissioning project and they prepared this report after completion of remediation work. Please direct any technical questions concerning this report to K. Paul Steinmeyer at Radiation Safety Associates, Inc., 860-228-0487, 860-428-3088 (cell), or e-mail at kpstein@radpro.com. If you have any other questions concerning this project, please contact me.

Sincerely,

Jayanta K. Nag
