Subject: RE: nmfs questions re. IP thermal

Thank you Drew. After we have a chance to digest, I will let you know if we have any questions. Given that you will not be in tomorrow, it looks like any teleconference would have to be Tues-Wed.

If I do have a question tomorrow, would you mind if I just called Julie (not sure what the rules are here?)

Thanks again.

Subject: FW: nmfs questions re. IP thermal

Dara - This e-mail forwards Julie Crocker's requests concerning shortnose sturgeon and thermal effects. You'll note that this document contains two categories of requests. The first paragraph contains information NMFS expects to see in NRC's BA supplement, while the remainder of the document contains questions that NMFS indicates relate to the 2011 Swanson et al. report.

Julie's e-mail, below, includes Julie's availability this week and next for a teleconference, if necessary.

Please contact me if you have any questions. I will be in the office until 4:45p today, out of the office tomorrow, and in next week Tuesday through Friday.

Best,
Drew

Subject: nmfs questions re. IP thermal

Hi all -

Attached are NMFS questions related to the Swanson 2011 thermal plume report and a summary of what we anticipate that NRC would consider in the supplement to the BA. Please forward to Entergy as appropriate. I am in the office until 3:30 today, in 8-12 tomorrow and then only in Tues and Weds next week, but will be checking email throughout - if NRC or Entergy has any questions regarding this I'm happy to have a call, etc.

Thanks and enjoy the long weekend!

Julie
