

January 31, 2012

The Honorable Barbara Boxer  
Chairman, Committee on Environment  
and Public Works  
United States Senate  
Washington, DC 20510

Dear Madam Chairman:

We have enclosed a copy of a notice of closure of a petition for rulemaking submitted by the Organization of Agreement States, Inc. and a request received from the Bureau of Radiation Control of the Florida Department of Health. The petition and request were docketed together for Nuclear Regulatory Commission (NRC) action.

The NRC is denying the petition to amend the regulations to require a specific license for some devices that are currently generally licensed because there is not a clear safety risk reduction or security enhancement that would justify the change. However, the NRC is granting the request for a change in Agreement State compatibility because the compatibility change will allow States to better track manufacturers and service providers and provide flexibility to enhance accountability.

The *Federal Register* Notice closing the petition is being transmitted to the Office of the Federal Register for publication.

Sincerely,

**/RA/**
