Documents Title in ADAMS)

I told the Radiation Safety Officer (RSO) that, no financial assurance documents were submitted with the amendment request. The amount of germanium 68 requested would require a decommissioning funding plan. If they lowered the request to 3 millicuries then they could still use their prescribed amount of financial assurance but would still need to submit an updated Certification of Financial Assurance. The RSO said they would look over the options and communicate back with me on how they plan to proceed.

Action Required: Wait for licensee to amend their request or provide financial assurance.**Document Availability:**☒**Publicly Available**☐**Non-Publicly Available**☒**Non-Sensitive**☐**Sensitive – Privacy Act/ PII**☐**Immediate Release**☐**Non-Sensitive Copyright**☐**Sensitive – Internal****Normal Release Date:** 8/11/2011☐**Sensitive- Proprietary**☐**Sensitive – Security-Related****Delayed Release Date:****SUNSI Review Completed By:** Dennis Lawyer 8/3/2011 / RA /**Document Accession #:** ML112150507
