Don,

Steve passed on along this information on Luminant seismic meetings for Section 3.7 and 3.8. He did not indicate whether your letter on seismic commitments is still scheduled for 8/5/2011. Hossein Hamzehee has stressed that NRO senior management expects to see a schedule letter later this month and we can't really start planning for Luminant until we get your letter.

Also, I think it would be useful to have an agenda setting call once you propose specific topics and dates for the meetings in September and November.

Thanks,

Dennis Galvin

Dennis,

Please check with Edmund Kleeh on the status of RAIs 177 (5027) and 181 (5099) for COLA section 14.3.7.

Luminant wants to have **category 2** (with MHI) public meetings in September and November 2011 on site specific information related to section 3.7 and 3.8. They will get back to us when they have a specific date in mind. The first meeting will be a planning meeting.

Ruth –

On section 6.4 of RCOLA, Luminant would like to know the status of RAI 202 and 216 – control room habitability.

Thanks,

Stephen Monarque
