SUBJECT: LICENSE AMENDMENT

Please find enclosed Amendment No. 59 to NRC License No. 50-17838-01 **acknowledging your letter dated June 14, 2011, stating that Mark P. Winslow, Ph.D., has been appointed temporary radiation safety officer for a period not to exceed 60 days per year. In addition, Dr. Winslow has been added as authorized medical physicist as requested in your letter dated June 22, 2011. Please note that the NRC has performed an analysis of the sum of the ratios of material in quantities of concern authorized in this license and as a result this amendment has reduced the total amount of material authorized in condition 8.F. to keep the sum of the ratios below unity.** An environmental assessment for this licensing action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14)(iv). You should review the enclosed document carefully and be sure that you understand all conditions. You can contact me at 817-860-8189 if you have any questions about this license.
