Dear Mr. Dobey:

Enclosed is Amendment No. 11 to your NRC Material License No. 24-00513-39 in accordance with your request. Please note that the major changes made to your license are printed in **bold** font.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

**I also deleted your letters dated December 7, 2005, and January 10, 2008, related to the Increased Controls and Fingerprinting Orders, from Condition No. 25. We inserted these letters into Condition No. 25 during the preparation of Amendment No. 10, issued on April 13, 2009, as the result of a misunderstanding.**

**We regret the error and apologize for any inconvenience this error may have caused you.**

**Please also note that the decommissioning and financial assurance instrument assessment related to the new authorization in Subitem Nos. 6 through 9 W., inclusive, provided to us in your letter dated June 17, 2011, is being reviewed separately from this amendment. We will contact you if we have any further questions pertaining to that part of our review.**

**Please review the enclosed amendment carefully and advise me immediately if you have any questions at either 630-829-9841 or 1-800-522-3025, ext. 9841.**

This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,
