SUBJECT: PRAIRIE ISLAND NUCLEAR GENERATING PLANT, UNIT 2 – CORRECTION TO
LICENSE PAGE INCLUDED WITH AMENDMENT NO. 189 REGARDING CYBER
SECURITY PLAN (TAC NO. ME4295)

Dear Mr. Schimmel:

By letter dated July 29, 2011 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML11187A231), the U.S. Nuclear Regulatory Commission (NRC) issued Amendment No. 189 to Renewed Facility Operating License No. DPR-60 for the Prairie Island Nuclear Generating Plant (PINGP), Unit 2. Following issuance of the amendment, the NRC staff was informed by the PINGP staff that the Amendment No. in paragraph 2.C.(5) of the affected license page was inadvertently revised.

The portion of the PINGP, Unit 2, license page for Amendment No. 189 currently in error is shown below:

(5) Additional Conditions

The Additional Conditions contained in Appendix B, as revised through Amendment No. [incorrectly revised from “177” to “188”], are hereby incorporated into this license. NSPM shall operate the facility in accordance with the Additional Conditions.

We have enclosed the corrected Renewed Facility Operating License DPR-60 page 4 for Amendment No. 189 and request that you replace this page in NRC letter dated July 29, 2011. This clerical error only affected the specified page of the facility's operating license and does not change the NRC staff's conclusions regarding amendment No. 189 for PINGP, Unit 2. We regret any inconvenience caused by this error.

M. Schimmel
