JUL 06 2011

Charles E. Sherman  
Radiation Safety Officer  
Entergy Nuclear Operations, Inc.  
Palisades Nuclear Plant  
27780 Blue Star Memorial Highway  
Covert, MI 49043

Dear Mr. Sherman:

Enclosed is Amendment No. 13 extending the expiration date to your NRC Material License No. 21-08606-08. The new expiration date is December 31, 2011. Please note that the changes made to your license are printed in **bold** font.

Your NRC license expiration date was extended to afford you ample time to resubmit your termination request and address the issues that were discussed via phone and email with Heather Ramsey and Barbra Dotson. Basically what is needed is a history of work conducted under this license and evidence that facilities where work was performed are not contaminated. A final status survey and information concerning instrumentation used to perform final status survey(s) and calibration history of instruments will suffice. If you decide to renew your NRC license, please resubmit your renewal application and address the issues that are attached to this letter.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>. A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's
