Mr. Harold Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: Duane Arnold Energy Center
Docket No: 50-331
Op. License No: DPR-49
Withdrawal of GE Proprietary Reports on RHR Service Water

Reference: 1) Letter, R. McGaughy to H. Denton, "Reduced Flow Requirements for the Residual Heat Removal Service Water System," NG-83-1931, July 20, 1983
2) Letter, D. Vassallo to L. Liu, "Request for Withholding Information from Public Disclosure," June 12, 1984.

Dear Mr. Denton:

In the Reference (1) letter, Iowa Electric requested that the two General Electric Reports (NEDC-22082-P, "Duane Arnold Energy Center Suppression Pool Temperature Response," and NEDE-30051, "Analysis of Reduced RHR Service Water Flow at the Duane Arnold Energy Center") submitted in support of the proposed change be withheld from public disclosure pursuant to 10 CFR 2.790. We were subsequently informed by Mr. Vassallo's letter (Reference 2) that our request had been denied and that we had 30 days in order to withdraw the subject reports or they would be placed in the Public Document Room. By this letter, we are requesting that the reports submitted with the original application be withdrawn and returned to us. We will replace the original reports with a non-proprietary version in the near future.

Please contact this office if you have further requirements or questions.

Very truly yours,

R. W. McGaughy
