U.S. Department of Energy
National Nuclear Security Administration
1000 Independence Avenue, S.W.
Washington, D.C. 20585-1615

Dear Mr. Oehlbert:

Enclosed is an application from Urenco, Inc., dated August 8, 2011, requesting Amendment No. 03 to export license XSOU8787/02. This license presently authorizes the export of up to 32,000,000.0 kilograms (kg) of natural uranium in the form of uranium hexafluoride (UF₆) to Urenco facilities for enrichment and return to the U.S. for ultimate use as fuel in nuclear power reactors. The purpose of this amendment is to 1) extend the expiration date from December 31, 2011 to December 31, 2014, and 2) increase the amount of uranium authorized for export from 32,000,000.0 kg to a new cumulative total of 52,000,000.0 kg.

Assurances from EURATOM are required that the additional material (20,000,000.0 kg natural UF₆) will be subject to all the terms and conditions of an agreement for cooperation. Your assistance in forwarding the amendment (XSOU8787/3) request to EURATOM and obtaining the necessary assurances will be appreciated.

Please note that the material is of Australian, Canadian, German, Kazakhstani, Namibian, Russian, South African, United States, and Uzbekistani origin. It, thus, has Australian, Canadian and EURATOM obligations.

Sincerely,

/RA/

Janice E. Owence, Branch Chief
