Attention: Michelle Simmons, Health Physicist  
Nuclear Material Safety Branch B

The Central Materials Lab in Boise Idaho (District 9) is currently the License holder and the Administrator of the Nuclear Gauge Program for the Idaho Transportation Department.

We will implement and maintain the operating, emergency and security procedures described in the errata sheet to Appendix H of NUREG-1556, Vol. 1, Rev. 1, dated November 2001, and provide copies of these procedures to all gauge users and at each job site.,

Each District Lab also has a log book to keep track of all gauges when they are out at different job sites. If you have any questions concerning this request or need more information, please contact Dianna Hoffecker at the Central Materials Lab in Boise @ (208) 334-8026 or e-mail [Dianna.Hoffecker@itd.idaho.gov](mailto:Dianna.Hoffecker@itd.idaho.gov).

Thank you for your assistance in this matter.

Sincerely,

*Dianna Hoffecker, RSO*

Michelle,

Docket Number: 03032230  
License Number: 11-27076-01  
Mail Control Number: 575121

Would you like me to fax a revised copy of our license renewal to you? There will be no changes to the items listed in 8 A through 8 E, at this time. Also all RSO's for the state have been informed of the emergency and security procedures and it has been implemented through the state.

Docket Number: 03032230  
License Number: 11-27076-01  
Mail Control Number: 575121

Ms. Hoffercker,

This is in reference to your application dated May 3, 2011, to renew Nuclear Regulatory Commission License No.

11-27076-01. In order to continue our review, we need the following additional information.

1. In your application, you requested material authorization for several nuclides. However, you did not request a possession limit for each nuclide. Please confirm that you do not wish to make any changes to the current possession limits listed for Items 8.A. through 8. E.
2. Please commit to the following statement:

We will implement and maintain the operating, emergency and **security procedures** described in the errata sheet to Appendix H of NUREG-1556, Vol. 1, Rev. 1, dated November 2001, and provide copies of these procedures to all gauge users and at each job site (<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v1/r1/apph-errata.pdf>).

**Please respond to this email by August 12, 2011.** If you are unable to respond by this due date, please don't hesitate to contact me so we can discuss an extension to the date. Our fax number is (817) 860-8263. You may respond by email in pdf. format. If you have any questions regarding this email, please call me at

817-276-6590. When responding to this email, please include the license, docket and control numbers located at the top of this page.

Thanking you in advance for your cooperation, assistance, and prompt response in this matter.

Sincerely,

Michelle Simmons, Health Physicist  
Nuclear Materials Safety Branch B
