Dear Ms. Smith:

This refers to: (1) your letter dated March 30, 2011 notifying us of changes to your previously approved areas of use, and (2) our voicemail and facsimile messages to you, responding to your notification. We have not received any response regarding information requested in those messages.

As indicated in our July 6, 2011, messages, facility changes must be authorized by the Nuclear Regulatory Commission, via a license amendment. The letter dated March 30, 2011, does not meet the requirements specified in either 10 CFR 30.36 (j) or 10 CFR 30.33 (a)(2). Accordingly, we have voided your request to amend NRC License No. 21-32635-01 with facility updates. This action is without prejudice to resubmission. If you resubmit your request, please state that the resubmission is additional information to Control Number 574952.

If you have any questions or require clarification on any of the information stated above, you may contact us at (630) 829-9887.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
