

NOTE TO FILE

Re: Change to associated E-license by FSME

Licensee: Cammenga and Associates
License No.: 21-26460-01
Docket No.: 030-33009
Control No: N/A

Amendment No: N/A

A revision to an associated license was reviewed, for impact on the possession license.

Additional Information:

Based on a letter dated February 18, 2011, the E-license, License No. 21-26460-02E, was amended to reflect the removal of one location of use. The possession license, License No. 21-26460-01, had been amended, upon review by the Region III MCID, also to reflect the removal of one location of use. A discrepancy was found between Region III and Headquarters concerning the appropriate mailing address for the licensee. The information was passed on to Headquarters for further review. Documents related to the recent FSME E-License changes are attached:

1. Amendment Request from Licensee dated 02/18/2011;
2. Cover Letter from FSME dated 03/25/2011;
3. Amendment No. 10 to License No. 21-02640-01 dated 03/25/2011; and
4. Memo to file dated 03/22/2011, related to FSME license review and action.

This changes to the E-license have been reviewed, resulting in one of the following:

Amendment to Possession License is needed: _____

Subject: REQUEST TO AMEND LICENSE 21-26460-02E AND REGISTRATION
NR-0210-D-101-E

Dear Ms. Spykerman:

Please find enclosed amendment No. 10 to your NRC License No. 21-26460-02E and a revised copy of your Registration Certificate No. NR-0210-D-101-E. These revisions reflect your February 18, 2011, request to amend the referenced exempt distribution license and sealed source and device registration to delete the distribution location at 100 Aniline Avenue N., Holland, Michigan.

Please review the enclosed documents carefully and be sure that you understand all the conditions. If there are any errors or questions, please contact us so that appropriate corrections and answers can be provided.

Please be advised that you must manufacture and distribute the products in accordance with the statements and representations contained in your application, with enclosures thereto, and the information set out in your registration certificate. As a general rule, you must request and obtain an amendment to the registration certificate before you make changes or modifications to the information submitted to obtain the certificate. You are also obligated to notify us promptly in writing, should you decide to no longer manufacture or offer service support for the product.

Please be advised that you must conduct your program involving radioactive materials in accordance with the conditions specified in your NRC license, representations made in your license application, and other rules, regulations, and orders of the U.S. Nuclear Regulatory Commission, now or hereafter in effect, to include the following:

1. Comply with applicable NRC regulations in 10 CFR Part 30, "Rules of General Applicability to Domestic Licensing of Byproduct Material"; 10 CFR Part 32, "Specific Domestic Licenses to Manufacture or Transfer Certain Items Containing Byproduct Material"; and other applicable regulations.

NOTE: Licensees authorized to distribute or initially transfer products containing byproduct material must also possess a valid possession license issued either by the NRC or an Agreement State(s) which authorizes possession and use of byproduct material.

2. Distribute only those products containing radioactive material which are specifically authorized in your license.

D. Spykerman

- 2 -

3. Notify NRC in writing within 30 days of any change in mailing address.
4. Request and obtain appropriate amendments if you plan to change control or ownership of your organization, change locations of distribution of products containing radioactive material, or make any other changes in your program which are contrary to the license conditions or representations made in your license application and any supplemental correspondence with NRC.
5. Submit a complete renewal application or termination request at least 30 days before the expiration date on your license. You should receive a reminder notice approximately 90 days before the expiration date. Continued distribution of products containing radioactive material after your license expires is a violation of NRC regulations.
6. In accordance with 10 CFR 30.36, request termination of your license if you plan to permanently discontinue activities involving distribution of products containing radioactive material.

You will be periodically inspected by NRC. Failure to conduct your program in compliance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC may result in enforcement action(s) against you. This could include issuance of a notice of violation; proposed imposition of a civil penalty; or an order suspending, modifying, or revoking your license as specified in the "General Statement of Policy and Procedures for NRC Enforcement Actions," (NUREG-1600).

In accordance with 10 CFR 2.390 of NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in NRC's Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions concerning your license, please contact Richard Struckmeyer at (301) 415-5477 or richard.struckmeyer@nrc.gov. For questions concerning your registration certificate, you may contact me at (301) 415-7908 or john.odonnell@nrc.gov.

Sincerely,

/RA/

U.S. NUCLEAR REGULATORY COMMISSION

Amendment No. 10

MATERIALS LICENSE

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974 (Public Law 93-438), and Title 10, Code of Federal Regulations, Chapter I, Parts 30, 31, 32, 33, 34, 35, 36, 39, 40, and 70, and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, acquire, possess, and transfer byproduct, source, and special nuclear material designated below; to use such material for the purpose(s) and at the place(s) designated below; to deliver or transfer such material to persons authorized to receive it in accordance with the regulations of the applicable Part(s). This license shall be deemed to contain the conditions specified in Section 183 of the Atomic Energy Act of 1954, as amended, and is subject to all applicable rules, regulations, and orders of the Nuclear Regulatory Commission now or hereafter in effect and to any conditions specified below.

Licensee		In accordance with the letter dated, February 18, 2011,
1. Cammenga & Associates		3. License number 21-26460-02E is amended in its entirety to read as follows:
2. 100 Aniline Avenue Holland, MI 49424		4. Expiration date July 31, 2013
		5. Docket No. 030-33020 Reference No.
6. Byproduct, source, and/or special nuclear material	7. Chemical and/or physical form	8. Maximum amount that licensee may possess at any one time under this license
A. Hydrogen-3	A. Glass Sealed Vials (MB Microtec Models 400/6, 400/3, 400/1)	A. Not Applicable (See Condition 11)
9. Authorized use:		
Pursuant to 10 CFR Part 32.22, "Specific Domestic Licenses to Manufacture or Transfer Certain Items Containing Byproduct Material," the licensee is authorized to distribute self-luminous products as specified in Condition 10 of this license to persons exempt from the requirements for a license pursuant to 10 CFR Part 30.19, or equivalent provisions of the regulations of any Agreement State.		

CONDITIONS

10. The following self-luminous products may be distributed pursuant to this license provided the amount of hydrogen-3 contained in each device does not exceed the amount specified:

<u>Device Model</u>	<u>Maximum Activity per Device</u>
3H Series Compass	120 mCi (4.44 GBq)
J582T Compass	15 mCi (555 MBq)
3H-Tritium Series Knife	60 mCi (2.22 GBq)

11. This license does not authorize possession or use of licensed material.
12. The licensee may distribute only from its facilities located at 2011 Bailey Street, Dearborn, Michigan.
13. The licensee shall file periodic reports as specified in Section 32.25(c), 10 CFR Part 32.

MEMORANDUM

TO: SSD Case File 11-15
Cammenga and Associates

Sealed Source and Device Registration
NR-0210-D-101-E

FROM: John O'Donnell, General Engineer /RA/
Licensing Branch, FSME/DMSSA

DATE: March 22, 2011

SUBJECT: No Checklist or Safety Evaluation Performed

Cammenga requested the removal of its former address after having completed the move to the new address in Dearborn.

After reviewing the request and the information provided by Cammenga and Associates, no safety evaluation or the preparation of a checklist for the sealed sources was found necessary.

John O'Donnell
Licensing Branch, FSME/DMSSA
