JUN 29 2011

Rick Haines
Radiation Safety Officer
PerkinElmer Life Sciences
2200 Warrenville road
Downers Grove, IL 60515

Dear Mr. Haines:

Due to a change in NRC's licensing policies, we must obtain possession limits for all materials listed on your license. As we discussed by telephone on May 24, 2011, we have listed the total possession limit for barium-133 as 25 millicuries in Item 8.A. and the total possession limit for europium-152 as 25 millicuries in Item 8.B. in a corrected copy to Amendment No. 52 to your NRC Material License No. 12-04933-02. Also note, we have removed the license condition that required you to restrict the possession of licensed materials to quantities below the minimum limit for establishing decommissioning financial assurance because based upon the new possession limits, this condition is no longer applicable.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Please contact me at (630) 829-9839, if you have any questions.

Sincerely,

A handwritten signature in cursive script, reading "William P. Reichhold", is written over a horizontal line.

William P. Reichhold
Materials Licensing Branch

License No. 12-04933-02
Docket No. 030-04098

Enclosure: Corrected copy of Amendment No. 52
