Tolland, CT 06084

Dear Ms. Gale:

Due to a change in NRC's licensing policies, we must obtain possession limits for all materials listed on your license. However, as we discussed by telephone on March 23, 2011, we understand that you do not take possession of any of the radionuclides listed on your license because you only use the radionuclides at your customer's facilities. We have issued a corrected copy to your NRC license 06-32815-01, which authorizes use of radionuclides at your customer's facilities, not possession of radionuclides.

Also, we have removed the license condition that required you to restrict the possession of licensed materials to quantities below the minimum limit for establishing decommissioning financial assurance because you are not authorized for possession, so this condition is no longer applicable.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Please contact me at (630) 829-9839, if you have any questions.

Sincerely,

A handwritten signature in black ink, reading "William P. Reichhold".

William P. Reichhold
Materials Licensing Branch

License No. 06-32815-01
Docket No. 030-38382

Enclosure: Corrected copy of License 06-32815-01
