Re: In the Matter of Iowa Electric Light and Power
Company, Central Iowa Power Cooperative, and
Corn Belt Power Cooperative (Duane Arnold Energy
Center) Docket No. 50-331

Dear Mr. Muller:

On behalf of applicant and co-applicants in the captioned matter, I am pleased to transmit to you six (6) copies of a certification issued pursuant to section 401 of the Federal Water Pollution Control Act (1972 amendments) by the State of Iowa Department of Environmental Quality (Water Quality Management Division) on April 24, 1973 with respect to the Duane Arnold Energy Center.

This certification is also being transmitted under separate cover to the Atomic Safety and Licensing Board convened to conduct the hearing in this matter pursuant to 10 CFR Part 50, Appendix D, Section B.

Sincerely,

By

Jack R. Newman

Iowa Electric Light & Power Company
Cedar Rapids, Iowa

Attention: Mr. Ted P. Lewis, Attorney

Re: Duane Arnold Energy Center
Palo, Iowa

Dear Mr. Lewis:

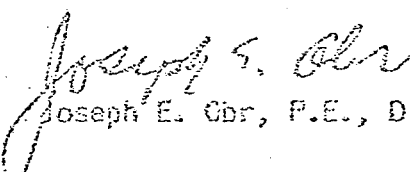

The Water Quality Management Division of the Department of Environmental Quality has reviewed the application of the Iowa Electric Light and Power Company for certification of their facility at Palo, Iowa, as required by Section 401 of the Federal Water Pollution Control Act, as amended. The review indicates that the original certification issued on April 14, 1971 is an existing and valid certification. This Department has received no notification from the Environmental Protection Agency advising it that there have been any implementation of guidelines or effluent limitations or statutes issued pursuant to Sections 301, 302, 306 or 307 of the Federal Water Pollution Control Act.

Upon recommendation of the staff, the Water Quality Commission, at their regular meeting of March 29, 1973 authorized the staff to issue the necessary certification pursuant to Section 401. This certification is intended to verify that the project is presently in compliance with all applicable Water Quality Standards of the State.

This certification is issued solely for the purpose of Section 401 of the Act and should not be construed to indicate approval of the project for the purpose of any pending applications for other permits regarding construction and operation which may be required by the State of Iowa.

Sincerely,

WATER QUALITY MANAGEMENT DIVISION

Joseph E. Gbr, P.E., Director

JEO/zb
