Ms Cumbow,

The relevant Fermi 3 documents are located in ADAMS as public documents. When doing an ADAMS search it may be helpful to include the Fermi 3 Docket Number (05200033) as part of your search. This would help limit the search to only Fermi 3 application documents.

Hi Mr. Hale,

Are there recent background documents from this year that give history behind these open items? Can you direct me to them? I do have the original application from Fermi, but think things have changed a lot since then. Could you direct me to recent or relevant background documents directly related to these open items. Thank you. -Kay Cumbow

The purpose of this conference call is to facilitate discussion between NRC staff and applicant staff regarding open items related to the Safety Evaluation Report for the Fermi Unit 3 COL application.
