Jerry/Raj

Please make the attached draft available to your reviewers and other interested parties for our Open Items call later this week. I believe having this draft will serve to facilitate our discussion on the acceptability our mark-up of the subject figure.

*(See attached file: Draft Figure 11.4-1R Markups.pdf)*

See attached draft markup to Figure 11.4-1R to address concerns identified during the 8-4-11 call with the NRC. The markup changes the low activity phase separator tank output to show decant and circulating lines depicted in the upper and lower sections of the tank block respectively, and more clearly show the circulating pumps inlet header which is depicted in the system P&ID.
