SUPPLEMENTARY INFORMATION:

BACKGROUND

The Commission hereby gives notice that, pursuant to Section 189a of the Atomic Energy Act, it will convene an evidentiary session to receive testimony and exhibits in the uncontested portion of this proceeding regarding the March 27, 2008, application of South Carolina Electric & Gas Company, acting for itself and as agent for the South Carolina Public Service Authority (also referred to as Santee Cooper), for two Title 10 of the *Code of Federal Regulations* (10 CFR) Part 52 combined licenses (COLs), seeking approval to construct and operate new nuclear power generation facilities at the Virgil C. Summer Nuclear Station (VCSNS), to be located in Fairfield County, South Carolina. This mandatory hearing will concern safety and environmental matters relating to the proposed issuance of the requested COLs, as more fully described below. Participants in the hearing are not to address any contested issues in their written filings or oral presentations.

MATTERS TO BE CONSIDERED

The matter at issue in this proceeding is whether the review of the application by the Commission's staff has been adequate to support the findings found in 10 CFR 52.97 and 10 CFR 51.107 for each of the COLs to be issued. Those findings that must be made for each COL are as follows:

Issues Pursuant to the Atomic Energy Act of 1954, as Amended

(1) whether the applicable standards and requirements of the Act and the Commission's regulations have been met; (2) whether any required notifications to other agencies or bodies have been duly made; (3) whether there is reasonable assurance that the facility will be constructed and will operate in conformity with the license, the provisions of the Act, and the Commission's regulations; (4) whether the applicant is technically and financially qualified to engage in the activities authorized; and (5) whether issuance of the license will not be inimical to the common defense and security or the health and safety of the public.

Issues Pursuant to the National Environmental Policy Act (NEPA) of 1969, as Amended

(1) Determine whether the requirements of Sections 102(2) (A), (C), and (E) of NEPA and the applicable regulations in 10 CFR Part 51 have been met; (2) independently consider the final balance among conflicting factors contained in the record of the proceeding with a view to determining the appropriate action to be taken; (3) determine, after weighing the environmental, economic, technical, and other benefits against environmental and other costs, and considering reasonable alternatives, whether the combined license should be issued, denied, or appropriately conditioned to protect environmental values; and (4) determine whether the NEPA review conducted by the NRC staff has been adequate.

EVIDENTIARY UNCONTESTED HEARING

The Commission will conduct this hearing beginning at 9:00 a.m., Eastern Daylight Time (EDT) on October 12, 2011, at the Commission's headquarters in Rockville, Maryland. The hearing on these issues will continue on subsequent days, if necessary.

PRESIDING OFFICER

The Commission is the presiding officer for this proceeding.

INTERESTED GOVERNMENT PARTICIPANTS

No later than **September 12, 2011**, any interested State, local government body, or affected, Federally-recognized Indian Tribe may file with the Commission a statement of any issues or questions that the State, local government body, or Indian Tribe wishes the Commission to give particular attention to as part of the uncontested hearing process. deadline indicated above will be made part of the record of the proceeding. The Commission will use such statements and documents as appropriate to inform its pre-hearing questions to the Staff and applicant, its inquiries at the oral hearing and its decision following the hearing. The Commission may also request, prior to **September 28, 2011**, that one or more particular States, local government bodies, or Indian Tribes send one representative each to the evidentiary hearing to answer Commission questions and/or make a statement for the purpose of assisting the Commission's exploration of one or more of the issues raised by the State, local government body, or Indian Tribe in the pre-hearing filings described above. The decision of whether to request the presence of a representative of a State, local government body, or Indian Tribe at the evidentiary hearing to make a statement and/or answer Commission questions is solely at the Commission's discretion. contentions that have been admitted in a contested proceeding for a COL application are outside the scope of the uncontested proceeding for that COL application. In addition, while States, local governments, or Indian Tribes participating as described above may take any position they wish, or no position at all, with respect to issues regarding the COL application or the NRC Staff's associated environmental review that do fall within the scope of the uncontested proceeding (i.e., issues that are not within the scope of admitted contentions), they should be aware that many of the procedures and rights applicable to the NRC's contested hearing process due to the inherently adversarial nature of such proceedings are not available with respect to this uncontested hearing. Participation in the NRC's contested hearing process is governed by 10 CFR 2.309 (for persons or entities, including States, local governments, or Indian Tribes, seeking to file contentions of their own) and 10 CFR 2.315(c) (for interested States, local governments, and Indian Tribes seeking to participate with respect to contentions filed by others). Participation in this uncontested hearing does not affect a State's, local government's, or Indian Tribe's right to participate in the separate contested hearing process.

The Commission recognizes that a request to participate under 10 CFR 2.315(c) in proceedings regarding this COL application was previously dismissed on mootness grounds by an NRC Atomic Safety and Licensing Board. Such dismissals apply solely to the contested portion of the proceeding, and do not affect any rights to participate in this uncontested portion of the proceeding.

Dated at Rockville, Maryland, this 22nd day of August 2011.

For the Nuclear Regulatory Commission.

Secretary of the Commission.
