PURPOSE: The NRC held a public outreach meeting on October 29, 2009, in Erwin, TN, to provide the local community with insights into NRC's inspection and oversight activities at the Nuclear Fuel Services (NFS) facility. At this meeting we stated that the NRC would continue to provide opportunities to ask the NRC questions in future public forums. Over the past 18 months, the NRC Region II has held numerous Category 1 public meetings, where the public was provided opportunities to ask the NRC questions on a variety of topics. To continue to provide specific responses on various topics raised during the numerous public meetings, it has become apparent that a few themes continue to be of interest to members of the public. This meeting is being held to address some of the themes that have been raised during previous meetings.

CATEGORY: This is a **Category 3** meeting: Public participation is actively sought to fully engage the public in the discussion of regulatory issues.
