Great Lakes Restoration Initiative

The Great Lakes Restoration Initiative is the largest investment in the Great Lakes in two decades.

A task force of 11 federal agencies developed a plan to put the president's historic initiative into action. This action plan covers fiscal years 2010 through 2014 and addresses five urgent focus areas:

1. Cleaning up toxics and areas of concern;
2. Combating invasive species;
3. Promoting nearshore health by protecting watersheds from polluted run-off;
4. Restoring wetlands and other habitats; and
5. Working with partners on outreach.

To be added to a listserv which will provide updates on funding information, including funding information about the Great Lakes Restoration Initiative, we request that you go to to <http://www.epa.gov/glnpo/maillist/index.html>.

Great Lakes Restoration Initiative Activities

EPA is soliciting applications for grants and cooperative agreements to be awarded as a part of the Great Lakes Restoration Initiative.

Up to \$ 40 million may be awarded under this Request for Applications for about 150 projects, contingent on the availability of appropriations.
