JUL 28 2011

Howard F. Beittenmiller  
Radiation Safety Officer  
Donald Danforth Plant Science Center  
975 North Warson Road  
St. Louis, MO 63132

Dear Mr. Beittenmiller:

It has come to our attention that Amendment No. 10 to your NRC material License No. 24-32339-01, issued on May 4, 2011, contained two errors. The errors consisted of incomplete designations in Subitem No. 3 and Condition No. 20 for your letter dated March 23, 2010, and the lack of a standard condition requiring the leak testing of sealed sources you may possess.

Enclosed is a Corrected Copy of Amendment No. 10 reflecting these changes in **bold** font. Please note that the addition of the leak test condition has resulted in the renumbering of the last condition of your license so it is now "No. 21."

We apologize for these errors and for any inconvenience they may have caused you. If you have any questions concerning these matters please contact me at (630) 829-9841. My fax number is (630) 515-1078. Please do not contact the original reviewer for this amendment, Ms. Katie N. Streit, as she has relocated to a different section within NRC and is no longer conducting decommissioning reviews.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in black ink that reads "Colleen Carol Casey".

Colleen Carol Casey
