Subject: OI call BNL question (2) on RAI 09.01.02-7

Rocky,

The information below is related to BNL question (2) on RAI 09.01.02-7 as discussed during the 8/3 OI call.

For STP Units 1&2, the spent fuel racks are not in the scope of the Maintenance Rule. The function of providing the capability to store spent fuel in the spent fuel racks is not ranked as High or Medium by STP 1&2 Graded Quality Assurance program.

This is similar to the STP 3&4 spent fuel storage racks(DCD/FSAR Table 3.2-1, F6 Fuel Storage Equipment) which were screened and determined to not meet the criteria for inclusion in D-RAP, a process that continues under the Maintenance Rule when it is implemented according to FSAR Table 13.4S-1.

Regards,

Coley Chappell
