The NRC will begin sending news and information via Twitter beginning today. The NRC Twitter account can be reached at www.twitter.com/NRCgov or through the NRC [website](http://www.nrc.gov).

Tweets will announce new press releases, speeches, reports, public meeting notices and other content posted on the NRC website. Other information, such as important notices on the *Federal Register*, will also be tweeted.

The NRC will still maintain its [Lyris Subscription Service and RSS feeds](#), though, for those who still wish to receive information that way.

Next month, the NRC expects to launch its new YouTube channel, which will join the [NRC Blog](#) as another social media outlet being used to enhance communication, collaboration and information exchange in support of the agency mission.
