ANI Policy No. NF-214
MAELU Policy No. MF-72

50-331

Dear Mr. Saltzman:

Please find enclosed a copy of Endorsement No. 53 to the American Nuclear Insurers Policy No. NF-214 and Endorsement No. 43 to the Mutual Atomic Energy Liability Underwriters Policy No. MF-72. These are the advance premium and standard premium Endorsements for calendar year 1982.

Further enclosed is Endorsement No. 52 to the American Nuclear Insurers Policy No. NF-214 which is an amendment of definition of "Nuclear Energy Hazard" and part of Condition 4, "Limitation of Liability; Common Occurrence."

Sincerely,

A handwritten signature in cursive script, appearing to read "R. Lowenstein".

AMENDMENTS OF DEFINITION OF "NUCLEAR ENERGY HAZARD" AND
PART OF CONDITION 4, "LIMITATION OF LIABILITY; COMMON OCCURRENCE"
(Indemnified Nuclear Facility)

It is agreed that:

1. In Insuring Agreement III, "DEFINITIONS", solely with respect to an "insured shipment" to which this policy applies as proof of financial protection required by the Nuclear Regulatory Commission, Subdivision (2) of the definition of "nuclear energy hazard", as amended, is further amended to read:
 - (2) the nuclear material is in an insured shipment which is away from any other nuclear facility and is in the course of transportation, including the handling and temporary storage incidental thereto, within
 - (a) the territorial limits of the United States of America, its territories or possessions, or Puerto Rico; or
 - (b) international waters or airspace, provided that the nuclear material is in the course of transportation between two points located within the territorial limits described in (a) above and there are no deviations in the course of the transportation for the purpose of going to any other country, state or nation, except a deviation in the course of said transportation for the purpose of going to or returning from a port or place of refuge as the result of an emergency.

Subdivision (b) of Condition 4, "LIMITATION OF LIABILITY; COMMON OCCURRENCE", amended, is replaced by the following:

source material, special nuclear material, spent fuel, waste, or tailings or wastes produced by the extraction or concentration of uranium or thorium from any ore processed primarily for its source material content in the course of transportation for which insurance is afforded under this policy and also arising out of such properties of other source material, special nuclear material, spent fuel, waste, or tailings or wastes produced by the extraction or concentration of uranium or thorium from any ore processed primarily for its source material content in the course of transportation for which insurance is afforded under one or more other Nuclear Energy Liability Policies (Facility Form) issued by Nuclear Energy Liability Insurance Association.

Effective Date of this Endorsement January 1, 1982 To form a part of Policy No. NF-214
12:01 A.M. Standard Time
