Docket No. 50-331

Iowa Electric Light and Power Company
ATTN: Mr. Duane Arnold, President
Security Building
P. O. Box 351
Cedar Rapids, Iowa 52406

Gentlemen:

Your letter dated January 19, 1976 addressed to the Director, Office of Nuclear Reactor Regulation, has been referred to me for reply. Your letter is in regard to the commitment made in your November 26, 1975 report of Technical Specification Violation 75-10 to reinstruct operating personnel by December 15, 1975 as to the surveillance requirements for verifying the hourly process computer printout for discharge water temperature.

Your January 19, 1976 letter states that although this reinstruction has taken place, no formal documentation can be located, and you request concurrence with a revised formal documentation date of February 1, 1976. We find that this date is acceptable.

Sincerely,

Original signed by
