Docket No. 50-331

Iowa Electric Light and Power
CompanyATTN: Mr. Duane Arnold
PresidentIE Towers
Post Office Box 351
Cedar Rapids, IA 52406

Gentlemen:

This is to acknowledge Mr. Hammond's letter dated May 10, 1977, which advised this office that, due to an unplanned extension of the current outage, approval and implementation of the non-licensed training program has been further delayed until June 15, 1977. Your original commitment for implementation of the subject program was January 1, 1977, and was subsequently extended by your request to May 15, 1977, subject to certain interim actions, which were included in your letter dated December 29, 1976.

Based on the importance of insuring that the program is adequately reviewed by plant supervision, your revised date of June 15, 1977, is considered acceptable with the understanding that you will take the necessary steps to ensure that the subject program will be promptly implemented by this date. We will review your program during a subsequent inspection.

Sincerely,

Gaston Fiorelli, Chief
Reactor Operations and
Nuclear Support Branch

Mr. James G. Keppler, Director
Office of Inspection and Enforcement
U. S. Nuclear Regulatory Commission-Region III
799 Roosevelt Road
Glen Ellyn, Illinois 60137

Subject: DAEC Non-licensed Training Program

Reference: Letter, dated December 29, 1976, E. Hammond
to J. Keppler

File: A-205d, A-102 Inspection Report 76-01

Dear Mr. Keppler:

In the referenced letter we advised you that development and implementation of our Non-licensed Training Program would be completed by May 15, 1977. This letter is to advise you that the first draft of the program has been completed by our consultant and is being reviewed by the appropriate Plant Supervisors. However, due to an unplanned extension of the current refuel outage, completion of the review and incorporation of comments has been delayed.

In order to ensure an adequate review by Plant Supervisors, it is necessary that we delay approval and implementation of the Non-licensed Training Program until June 15, 1977. The delay will improve the quality of the program review and minimize the number of subsequent revisions.

If you have any further questions, please contact this office.

Very truly yours,

Ellery L. Hammond
