**SUMMARY**

This refers to your application dated January 25, 2011 (with attachments) and the phone conversation between Craig Metzger and Mike Herr on July 25, 2011.

**During our review of your application dated January 25, 2011, we noted the statement that you "perform the transfer of sealed sources." Your license does not permit the removal of the sources from the gauge device or equipment that it is mounted to. During our phone conversation, you provided clarification that the molds are transferred and not the sources. Please provide clarification for this process of transferring molds instead of sources in a written statement.**

**Your application did not provide the commitment to inventory sealed sources every six months as stated in the Section entitled "Material Receipt and Accountability" in NUREG-1556, "Consolidated Guidance about Materials Licenses: Program-Specific Guidance about Fixed Gauges Licenses," Vol. 4, dated October 1998. Please provide a written statement that you will conduct physical inventories at intervals not to exceed 6 months to account for all sealed sources.**

**Lastly during the phone conversation we discussed the change in the company's name indicated on Item No. 2 of your application. Please review Appendix C of NUREG-1556, Vol. 4, dated October 1998 to determine if there is a control of ownership. If so you will need to provide the information required in Appendix C. If there was no control of ownership in accordance with Appendix C, please state so in writing.**

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
