H. B. ROBINSON STEAM ELECTRIC PLANT, UNIT NO. 2
INDEPENDENT SPENT FUEL STORAGE INSTALLATION
DOCKET NO. 72-3/LICENSE NO. SNM-2502

SUBMITTAL OF REVISION 22 TO THE
INDEPENDENT SPENT FUEL STORAGE INSTALLATION SAFETY ANALYSIS REPORT

Ladies and Gentlemen:

In accordance with the requirements of 10 CFR 72.70, Carolina Power and Light Company, also known as Progress Energy Carolinas, Inc. (PEC), is submitting Revision 22 to the Safety Analysis Report (SAR) for the site-specific licensed H. B. Robinson Steam Electric Plant (HBRSEP), Unit No. 2, Independent Spent Fuel Storage Installation (ISFSI).

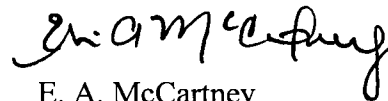

Revision 22 is being submitted in hard-copy format. The pages that have been revised since the previous submittal are indicated as Revision 22 in the Effective Page List and at the bottom of each revised page. Most pages indicate Revision 22 due to a change that reformatted the document and condensed the number of pages. The changes made over the past 24 months involved reformatting, a clarification, a change to the site plot plan, and incorporation of the revised organization of the Nuclear Oversight group as defined in the Quality Assurance Program. These changes did not involve a change to the physical design or design analyses of the facility and did not require an evaluation in accordance with 10 CFR 72.48.

A copy of the entire document is provided, rather than providing the revision on a replacement page basis, because most of the pages were revised. CD-ROM copies of Revision 22 to the SAR are being provided to the Nuclear Regulatory Commission (NRC) Region II Administrator, the HBRSEP, Unit No. 2, NRC Project Manager, and the HBRSEP, Unit No. 2, NRC Resident Inspector.

The applicable administrative procedure for revising the Safety Analysis Report specifies the process for review and approval of changes to the Safety Analysis Report. Based on the use of this procedural process for the Safety Analysis Report revision, I certify that the information contained in the enclosure accurately presents changes made since the previous submittal to the NRC.

If you have any questions concerning this matter, please contact Mr. C. A. Castell at (843) 857-1626.

Sincerely,

A handwritten signature in black ink, appearing to read "E. A. McCartney".

E. A. McCartney
Vice President, HBRSEP, Unit No. 2
