Dr. Thomas E. Murley, Director
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, DC 20555

Subject: Duane Arnold Energy Center
Docket No: 50-331
Op. License No: DPR-49
Reorganization of Nuclear Licensing
and Emergency Planning
File: A-105

Dear Dr. Murley:

This letter is to inform you of the reorganization of the Emergency Planning and Nuclear Licensing Departments and of the appointment of Mr. Paul Serra as the Manager of Emergency Planning. Paul has been the Assistant Radiation Protection Supervisor at the Duane Arnold Energy Center and prior to that was the Manager of the Nevada Radiological Emergency Response Organization.

As part of our overall effort to strengthen emergency planning, we have split the responsibilities of the Manager, Nuclear Licensing and Emergency Planning into two management positions: Manager, Nuclear Licensing and Manager, Emergency Planning. This change, in addition to a significant increase in the size of the Emergency Planning staff, will allow us to respond more effectively to requirements in the area of emergency planning. Attached is a copy of our Corporate Organization for Nuclear Power which will appear in our next submittal of the Quality Assurance Manual. Steve Swails will continue to serve as Manager, Nuclear Licensing.

Emergency Planning will continue to be principally located in our corporate offices. Mr. Serra can be reached by telephone at (319)398-8190.

Very truly yours,
