Subject: Vogtle COL

As Executive Director of Citizens for Nuclear Technology Awareness (CNTA) headquartered in Aiken, SC, I want to express my **complete** support for the issuance of the COL for Plant Vogtle units 3 and 4 (Docket Nos. 52-025-COL and 52-026-COL).

Southern Nuclear has been a great neighbor and corporate partner for decades. Plant Vogtle is just across the Savannah River from the Department of Energy's Savannah River Site near Aiken, SC. We view these new units as a first step for the country to resurrect our most promising source of energy for the 21st century. The positive environmental impact of nuclear energy is undeniable. We need the safe, clean and reliable electricity that these units will provide Georgians for generations to come. I strongly encourage the commission to approve the COL without delay.

Best Regards,
Clinton R. Wolfe, Ph.D.
Executive Director, CNTA
