**Subject:** RE: SUNSI Action: Calvert Cliffs, Unit 3, Response to RAI 307

Chris,

Can you give us a new schedule date based on UniStar providing their response to Item 3 (non-linear analysis) by September 5, 2011? Since we are currently in the process of developing a new schedule letter to the applicant, your input at this time will be very timely for coming up with the new P2 milestone.

No, the response for Items 1 and 2 is not a draft. It is their final response for these two items. The subsequent letter (hopefully, to be issued on 9/5) will only give us the response to the remaining item (i.e., item 3) only. Did you see any thing not adequately addressed by the applicant in these two items? And If it is absolutely necessary, I am willing to get a public phone call (which, unfortunately, is the only option) arranged to discuss them if that would help us. Please let Tanya Ford know, if we need that so that she can notice the phone call appropriately.

As always, I appreciate your prompt attention, Chris.

Thanks.

Surinder

**Subject:** RE: SUNSI Action: Calvert Cliffs, Unit 3, Response to Request for Additional Information No. 307, Stability of Subsurface Materials and Foundations. 8/3/2011

Surinder,

Item 3 (non-linear analysis) is a major component of this RAI response. Since the response date has moved out to September, I have no doubt this delay will impact our ability to complete our review in October.

Also, is this a 'draft' response from Unistar on Items 1 and 2? Can we dialogue with them before they make the final submittal on September 5? This may help avoid yet another round of RAIs on these topics.

Chris

UniStar's letter with ADAMS Accession Number **ML11216A200**, dated August 3, 2011, provides a **partial** response (addresses parts 1 & 2 only) to Question Number 02.05.04-31 of your RAI 307(eRAI 5741). The response also includes a statement that this response does not constitute any changes to the current

FSAR as a result of this partial response. Please review the response and appropriately status the applicable question in the eRAI system.

The above UniStar letter also provides a revised response date of September 5, 2011 for the remaining part (part 3) of Question 02.05.04-31. Please review this revised response date and let me or the chapter PM (Tanya Ford) know if it would adversely impact our completion schedule for this section.

Thanks.
