VALVE PERIODIC VERIFICATION PROGRAM TO DISCUSS FOLLOW-UP TO  
GENERIC LETTER 96-05 (TAC NO. ME6022)

On August 17, 2011, the U.S. Nuclear Regulatory Commission (NRC) held a Category 2 public meeting with stakeholders. The purpose of the meeting was to discuss the NRC's draft Regulatory Issue Summary (RIS) 2011-XX "Follow Up to Response for Generic Letter 96-05 Guidance for the Evaluation of Class D Valves in the Joint Owners Group Motor-Operated Valve Periodic Verification Program" (Agencywide Documents Access and Management System (ADAMS) Accession No. ML111170387).

A slide presentation was given by the NRC to provide an overview of the draft RIS. This presentation is available at ADAMS Accession No. ML11242A183. Following the slide presentation, the attendees were provided an opportunity to ask questions concerning the draft RIS. The attendees also provided input on some revisions to the draft RIS. Several suggestions were received to improve the quality of the RIS, including clarification of notification expectations. The NRC staff will evaluate these suggestions and revise the RIS, as needed.

The meeting was well attended by five NRC staff members and 16 industry representatives. Enclosed is the Attendees List.
