Subject: Millstone 3: Supplemental Information Regarding Request to Relocate the TS Surveillance Frequencies

Bill,

Due to unforeseen circumstances (Hurricane Irene) over this past week, I understand that the equivalent of 3 business days were lost with respect to DNC's response to the request for supplemental information for the MPS3 acceptance review of LAR regarding relocation of TS surveillance frequencies. As such, I find it acceptable to extend the response date the equivalent of 3 business days. The new response date is September 12, 2011.

Thank you,

Carleen Sanders
