

September 6, 2011

Mr. John J. Miller, CHP
International Isotopes, Inc.
4137 Commerce Circle
Idaho Falls, ID 83401

SUBJECT: APPROVAL OF AFFIDAVIT TO WITHHOLD INFORMATION REGARDING
FINANCIAL ASSURANCE (TAC L32739)

Dear Mr. Miller:

By letter, dated August 12, 2011 (Agencywide Documents Access and Management System [ADAMS] Accession Number ML11234A074), International Isotopes Inc., (INIS) submitted an affidavit and enclosures containing proposed proprietary information to the U.S. Nuclear Regulatory Commission (NRC). The affidavit requested the NRC to withhold from public disclosure, pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) 2.390, Financial Assurance Request for Additional Information Responses for the proposed INIS Fluorine Products, Inc.'s, facility.

The affidavit states that the proprietary information should be considered exempt from mandatory public disclosure for the following reasons, among others:

1. The information for which protection from disclosure is sought has been held in confidence by INIS.
2. This information is proprietary to INIS, and INIS seeks to protect it as such.
3. The information sought to be withheld is of a type that would customarily be held in confidence by INIS. The information consists of commercial and financial information that provides a competitive advantage to INIS.
4. The information sought to be withheld is being provided to the NRC in confidence; and under the provisions of 10 CFR 2.390, it is to be received in confidence by the NRC.
5. The information sought to be withheld is not available in public sources to the best of INIS's knowledge and belief.
6. Public disclosure of the proprietary information INIS seeks to protect is likely to cause substantial harm to INIS's competitive position within the meaning of 10 CFR 2.390(b)(4)(v). The proprietary information has substantial commercial value to INIS.

We reviewed the August 12, 2011, affidavit; the contents of the enclosures; and the transmittal letters in accordance with the requirements of 10 CFR 2.390—and concluded that the information designated as proprietary may be withheld.

Withholding the proprietary information from public release shall not affect the right, if any, of persons properly and directly authorized to review the documents. If the basis for withholding this information from public inspection should change in the future such that the information could then be made publicly available, you should promptly notify the NRC. You should also understand that the NRC may have cause to review this determination in the future; for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," copies of this letter and the affidavits will be available electronically for public inspection from the Publicly Available Records System component of ADAMS. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (Web-based ADAMS).

If you have any questions regarding this matter, please contact me at (301) 492-3119 or via e-mail to Matthew.Bartlett@nrc.gov.

Sincerely,

/RA/
