Jimi - PPL contacted me today and has decided to decline as participants in the SOARCA project. Consistent w/what they mentioned during our information call, the reasons for their decline included limited resources to support the project due to other ongoing and projected work commitments (containment analysis, fire protection PRA activities, etc) as well as the timing of the project relative to their ongoing extended power uprate and license renewal application (in-house) requests.

Still waiting to hear from Oconee.

I will be out of the office all next week. Please contact Mark Kowal and/or John Hughey while I'm out.

Rich
