Hi Geoff,

Here are the responses to your two questions:

1. I am not sure how we missed that -
We have decided not to be doing fueled experiment, thus the term "
and/or fueled experiment"
should be removed.
2. These should be numbered as 2.1, 2.2, 2.3, and 2.4, respectively.

Thank you.

Tatjana

Geoff,
Mt apologies. I have the President of the University of Belgrade

visiting me and the U until Thrs.
Would Friday be a good time to call you?
In the meantime I may answer these question in email if that is acceptable?
Thank you.

Tatjana, I know you must be very busy, but I have to talk to you at your earliest convenience about the Utah license renewal - two TS items.

1. UUTR TS 3.4, Basis 2, has "and/or fueled experiment" in the text. Since this TS is new, I think this came from another TS you may have used. Should it be deleted?
2. UUTR TS 6.1.2, Specification 2, items 1.1, 1.2, 1.3, and 1.4. Should these be numbered 2.1, 2.2, 2.3, and 2.4, respectively?

Please let me know when you are available.

Thanks
