As a Commissioner for Augusta, Richmond Co. Georgia. I want to express my support for the issuance of the COL for Plant Vogtle units 3 & 4 ( docket Nos. 52-025-COL and 52-026-COL )

Southern Nuclear has always been a positive economic impact to our welfare to our community and with the 2 new units it will be a greater impact for the success of the region.

I realize that clean energy is the way of the future, and it will last for generations .

I strongly encourage the Commission to approve the COL without delay

Respectfully, Commissioner Wayne Guilfoyle  
Augusta, Georgia
