Subject: GNF-A Emergency Response Telephone Listing

Reference: Docket No. 70-1113
License No. SNM-1097

Dear Sir or Madam:

The attachments to this letter contain Global Nuclear Fuel – Americas, L.L.C. Proprietary Information.

Attached is the Wilmington site's most recent Emergency Response Telephone Listing dated September 2, 2011. Please destroy the previous version dated June 27, 2011 in the RC&EP Manual. The yellow pages go behind the tab "Emergency Organization". The green pages go behind the tab "Offsite Support".

Each page of this document contains proprietary information identified as Global Nuclear Fuel – Americas, L.L.C. (GNF-A) Company Proprietary Information and should be protected accordingly. It is our understanding that you will destroy the previous version and protect this document from public disclosure.

If you have any questions concerning this letter, please call me at (910) 819-6301.

Sincerely,

Phillip D. Ollis, Licensing Engineer
Licensing & Liabilities

Commitments: None

Attachment(s): 1. Affidavit
2. Emergency Response Telephone Listing

Global Nuclear Fuel - Americas LLC

AFFIDAVIT

I, **Phillip D. Ollis**, state as follows:

- (1) I am the Licensing Engineer, Licensing & Liabilities, of Global Nuclear Fuel – Americas, LLC (GNF-A), and have been delegated the function of reviewing the information described in paragraph (2) which is sought to be withheld, and have been authorized to apply for its withholding.
- (2) The information sought to be withheld is contained in Attachments 1 of GNF-A's letter, GNF-A letter Number 11-032, Phillip Ollis to Mary Thomas, entitled GNF-A Emergency Response Telephone Listing, September 8, 2011. GNF-A text proprietary information in Attachments 1, is identified by the statement "Global Nuclear Fuel, LLC – Company Proprietary Information"
- (3) In making this application for withholding of proprietary information of which it is the owner or licensee, GNF-A relies upon the exemption from disclosure set forth in the Freedom of Information Act (FOIA), 5 USC Sec. 552(b)(4), and the Trade Secrets Act, 18 USC Sec. 1905, and NRC regulations 10 CFR 9.17(a)(4), and 2.390(a)(4) for trade secrets (Exemption 4). The material for which exemption from disclosure is here sought also qualifies under the narrower definition of trade secret, within the meanings assigned to those terms for purposes of FOIA Exemption 4 in, respectively, Critical Mass Energy Project v. Nuclear Regulatory Commission, 975 F2d 871 (DC Cir. 1992), and Public Citizen Health Research Group v. FDA, 704 F2d 1280 (DC Cir. 1983).
- (4) The information sought to be withheld is considered to be proprietary for the reasons set forth in paragraphs (4)a. and (4)b. Some examples of categories of information that fit into the definition of proprietary information are:
 - a. Information that discloses a process, method, or apparatus, including supporting data and analyses, where prevention of its use by GNF-A's competitors without license from GNF-A constitutes a competitive economic advantage over GNF-A and/or other companies.
 - b. Information that, if used by a competitor, would reduce their expenditure of resources or improve their competitive position in the design, manufacture, shipment, installation, assurance of quality, or licensing of a similar product.
- (5) To address 10 CFR 2.390(b)(4), the information sought to be withheld is being submitted to the NRC in confidence. The information is of a sort customarily held in confidence by GNF-A, and is in fact so held. The information sought to be withheld has, to the best of my knowledge and belief, consistently been held in confidence by GNF-A, not been disclosed publicly, and not been made available in public sources. All disclosures to third parties, including any required transmittals to the NRC, have been made, or must be made, pursuant to regulatory provisions or proprietary and/or confidentiality agreements that provide for maintaining the information in confidence. The initial designation of this information as proprietary information, and the subsequent steps taken to prevent its unauthorized disclosure are as set forth in the following paragraphs (6) and (7).
- (6) Initial approval of proprietary treatment of a document is made by the manager of the originating component, who is the person most likely to be acquainted with the value and sensitivity of the information in relation to industry knowledge, or who is the person most likely to be subject to the terms under which it was licensed to GNF-A. Access to such documents within GNF-A is limited to a "need to know" basis.
- (7) The procedure for approval of external release of such a document typically requires review by the staff manager, project manager, principal scientist, or other equivalent authority for technical content, competitive effect, and determination of the accuracy of the proprietary designation. Disclosures outside GNF-A are limited to regulatory bodies, customers, and potential customers, and their agents, suppliers, and licensees, and others
