SUBJECT

Preliminary Exit Meeting

SUMMARY

This was the first opportunity to contact the RSO since the reactive inspection that was conducted on 7/1/11 because the RSO was on vacation.

The inspector briefed the RSO on the preliminary inspection findings.

The inspector expressed concern regarding the verbiage contained at the top of Page 3 of the licensee's 15 day report dated 6/28/11. The RSO agreed that the verbiage did not clearly state what was intended and could be interpreted to mean that the physician authorized user must prescribe the dosage recommended by the referring physician. The RSO committed to email the inspector an addendum to the 15 day report by 7/25/11 for clarification.

Per the inspector's request, the RSO committed to email the inspector: (1) records of the RSC's specific authorization (e.g., 35.100, 200, etc.) for Doctors Nygujen and Osman; and (2) records of Dr. Osman's qualifications as required by 10 CFR 35.390 by 7/25/11. The requested information was unavailable or incomplete during the onsite inspection.
