Mr. Michael Herr:

The purpose of this letter is to finalize the request for a renewal to Somat Engineering, Inc.'s Material License No. **21-24685-01**.

Somat is requesting that our license lists the use of our nuclear materials (Troxler Density Gauges) to our two storage locations (Grand Rapids and Taylor Michigan) as listed on our License, and also at temporary project sites where the NRC maintains jurisdiction.

If you have any questions or require additional information to support our renewal, please contact me.
